Subject: RE: logistics for Silverton trip

I was not planning on sending anyone as I think those going have enough knowledge to cover the issues, I think we don't need to overwhelm them with feds (which is part of their worry) and Sabrina is not really available. If Martin thinks differently we can send someone but it would need to be Victor or I . Johanna

Johanna – Do you think someone from Site Assessment will be going to Silverton for the county meeting? Seems like someone should since the discussion will include listing (or adding). I am presuming that Steve Way may also attend but need to check with David Ostrander.

Paula/Steve,

Martin asked me to have you (Paula) make arrangements for the Upper Animas trip on 4/22-24. I assume you will be taking an EPA vehicle. Please let Martin know the details of his travel plans. Also let Noah know about hotel accommodations.

Thanks!

Bill
